

## Best Practices

1. **Environment-Friendly Campus** Policy was devised to serve as a guiding light for the staff and students to promote an on-campus lifestyle that preserves and protects the environment. **No Plastic Zone:** To reduce the consumption of plastic college adopted a policy of no plastic in principle. To reduce consumption of plastic bottles, water refill stations are installed, and guests/dignitaries/resource persons are served water in a glass jug. Eatables and tea in college canteen and hostel mess are served in steel plates and glass cups. Students are promoted to bring lunchbox from home in health perspective and to reduce plastic rappers of chips, biscuits etc. Anti-plastic rallies, poster competitions, talks, seminars on reducing waste creation are held. Institution's building permits sunlight to permeate into the structure through skylight, air vents, and passages that allow free flow of air across the campus with minimum electricity consumption.

**The Smart garden and Biological diversity:** College has varieties of name-tagged medicinal and ornamental plants. **Waste management:** All plastic, glass, paper, electronic wastes and recyclable waste on campus is mindfully segregated and disposed off accordingly. Paper-saving practices such as retaining e-copies of teaching plans, salary slips, and examination details have reduced the quantum of paper used on campus. Various departments conduct its internal examinations, assignments, and class test in e-mode through Google form, teach mint and telegram. Programs and competitions are frequently conducted on themes relating to the environment. The curriculum of several courses includes topics relating to sustainable practices, preserving resources, climate change, green management, ecosystem, and biodiversity. **Evidence of Success** • Students have become mindful of the environment, and they enthusiastically participate in activities that help sustain the planet.

**2. Deeksharambh Programme** was organized for the new students taking admission in B. Sc , B. Com and B.A students. In guru Diksha programme the students are given chance to explore the campus, meet faculty, and talk to an academic advisor before registering for classes. The major objective of the programme was to make the students aware of the academic aspects of the course, the rules and regulations of the institute and ensuring parental participation in monitoring the performance and progress of students.

**Event Objective:**

- To bridge the gap between students & faculties.
- To aware the students about the college culture and inform the students about the code of conduct.
- To prepare the students about their career goal & how to work on it.
- To involve and learn about the career development process and develop their skills.
- To create awareness among about the various co-curricular and extra activities helps the student for their overall development.
- To create awareness among students about the professional etiquettes.
- To promote the students for enhancing their skills & learn about the various innovative ways to enhance their career.
